Welcome to the Academy of Art University's 2020 Spring Show. We're excited to feature your work exclusively online this year and looking forward to sharing it with hiring companies and industries worldwide to make this year's show as easy as possible on you, our students. We are providing this form for you to create your artist profile.

Now let's get started.

Enter your name, eight-digit student I.D., and your best e-mail address, the one you use for professional contacts.

If you've been instructed to include a biography, copy and paste it here. Please ensure that your text has been grammar-checked and edited. You're welcome to add your résumé in PDF format, as well.

You can also add links to other portfolio sites, like Art Station or Itch.io.

Now it's time to select your hero image, which goes at the top of your profile page and will be seen in your school and any category pages. This image should be the one that got you into the Spring Show, and needs to be unique and high quality. For the School of Acting, we recommend a headshot.

Some schools have unique options like categories or materials, size, dimensions and so on. When you select your school program and degree, you'll see your uploader form appear with all the right options for your school.

Note that for Game Development, you have the option to upload a thumbnail of your game and link that to your game on Itch.io.

Once your upload is complete, you will receive a notification and the staff of your school will review your work for inclusion in the website. If they have any change requests, you'll be notified by email.

What's next? Wait for May 21st, 2020, when we announced the Spring Show website to the world, then you can share your profile with friends, family, on social media, with hiring companies, and everybody.

Good luck!
